2020 Accountability Rating: Given the impact of COVID-19, all districts and schools received a label of Not Rated: Declared State of Disaster for their 2020 accountability ratings. Click here to read the official announcement.

2020 Special Education Determination Status (district TAPR only): This label represents an integrated determination level status based on an evaluation of each local education agency’s (LEA) Results Driven Accountability (RDA) indicators in the special education program area and four Federally Required Elements (FREs), which include the State Performance Plan (SPP) compliance indicators 9, 10, 11, 12, and 13; data integrity; uncorrected noncompliance; and financial audit findings. Each LEA receives one of four special education determination levels (DLs):

- Meets Requirements
- Needs Assistance
- Needs Intervention
- Needs Substantial Intervention

2020 Armed Services Vocational Aptitude Battery (ASVAB) Test (Career Exploration) (district TAPR only): Senate Bill 1843 requires that each school year, each school district and open-enrollment charter school provide students in grades 10–12 the opportunity to take the ASVAB and consult with a military recruiter. There are two types of ASVAB tests; only the ASVAB Career Exploration Program (CEP) was evaluated. For the 2019–20 school year, districts were given the opportunity to request a waiver for this requirement due to the COVID-19 pandemic.

*Not Given:* The district completed the reporting requirement but did not offer the ASVAB CEP.

*Alternate Test Given:* The district completed the reporting requirement and did not offer the ASVAB CEP but did offer an alternate test.
Please note that due to the cancellation of spring 2020 State of Texas Assessments of Academic Readiness (STAAR) due to the COVID-19 pandemic, the Performance section of this year’s report is not updated.

**STAAR:** A comprehensive testing program for public school students in grades 3–8 or high school courses with end-of-course (EOC) assessments. The STAAR program is designed to measure to what extent a student has learned, understood, and is able to apply the concepts and skills expected at each grade level or after completing each course for which an EOC assessment exists. Each STAAR assessment is linked directly to the Texas Essential Knowledge and Skills (TEKS). The TEKS are the state-mandated content standards that describe what a student should know and be able to do upon completion of a course. For more information on the TEKS, see the Texas Essential Knowledge and Skills website at [http://tea.texas.gov/curriculum/teks/](http://tea.texas.gov/curriculum/teks/).

**Other Important Information:**

*Substitute Assessments.* Certain, specific assessments that students may take in place of an EOC assessment. For more information, see the Texas Administrative Code, §101.4002, at [http://ritter.tea.state.tx.us/rules/tac/chapter101/ch101dd.html](http://ritter.tea.state.tx.us/rules/tac/chapter101/ch101dd.html).

*Special Education.* STAAR (with and without accommodations) and STAAR Alternate 2 results are included.

*Spanish STAAR.* All STAAR assessments in grades 3, 4, and 5 are available in both English and Spanish. The TAPR performance includes performance on the Spanish STAAR.

*Rounding of STAAR results.* STAAR performance shown on the TAPR is rounded to whole numbers. For example, 49.877% is rounded to 50%; 49.4999% is rounded to 49%; and 59.5% is rounded to 60%.

*Masking.* STAAR performance rates are masked when necessary to comply with FERPA. For more information, see the Explanation of Masking at [https://rptsvr1.tea.texas.gov/perfreport/account/2020/masking.html](https://rptsvr1.tea.texas.gov/perfreport/account/2020/masking.html).

**STAAR Performance**

The STAAR Performance section of the TAPR displays performance results by grade, subject and performance level for students in the accountability subset, which are students enrolled in the same district/campus on both the snapshot date (TSDS PEIMS October snapshot) and the testing date. The STAAR Performance—All Students section of the TAPR displays STAAR performance by grade, subject, and performance level and includes all students tested, regardless of whether they were in the accountability subset.

STAAR Progress Measure Percent at Accelerated Growth. The percentage of assessments that exceeded the STAAR progress measure expectations. See Chapter 3 of the 2019 Accountability Manual for more information.

Percent of Students Maintaining or Improving Compared to Prior Year Performance Level. The percentage of students that maintained or improved their STAAR performance levels this year in comparison with last year. Students are included in the performance level achieved in the prior year.

Prior Year and SSI

Progress of Prior-Year Non-Proficient Students: The percentage of students in grades 4–8 who did not reach the satisfactory standard on STAAR (including STAAR Alternate 2) in the prior year but passed the corresponding assessment in the current year. For 2018–19, rates for ELA/reading and mathematics are calculated as follows:

\[
\frac{\text{number of matched grades 4–8 students who did not reach the satisfactory standard in 2018 but passed in 2019}}{\text{number of matched grades 4–8 students who did not reach the satisfactory standard in 2018}}
\]

For 2018–19, students in grades 4–8 included in these measures are those who

- took the spring 2018–19 STAAR (with or without accommodations) or STAAR Alternate 2 in ELA/reading and/or mathematics. This indicator does not include grade 3 assessment takers because that is the first STAAR assessment;
- are part of the 2018–19 accountability subset;
- can be matched to the spring 2017–18 STAAR administration—anywhere in the state—to find their prior year score for ELA/reading and/or mathematics; and
- did not reach the satisfactory standard on the 2017–18 STAAR administration of ELA/reading and/or mathematics.

Bilingual Education/ESL

Bilingual Education (BE): Dual-language program that enables English learners to become competent in listening, speaking, reading, and writing in English through the development of literacy and academic skills in both the primary language and English. This category includes the following:

- **BE-Trans Early Exit.** Bilingual program model that serves students of limited English proficiency. The transitional bilingual/early exit model transfers a student to English-only instruction between two and five years after the student enrolls in school.
- **BE-Trans Late Exit.** Bilingual program model that serves students of limited English proficiency. The transitional bilingual/late exit model transfers a student to English-only instruction between six and seven years after the student enrolls in school.
- **BE-Dual Two-Way.** Biliteracy program model designed to develop fluency and literacy in English and another language. The dual language immersion/two-way model integrates students of limited English proficiency with students proficient in English and transfers a student of limited English proficiency to English-only instruction between six and seven years after the student enrolls in school.

**BE-Dual One-Way.** Biliteracy program model designed to develop fluency and literacy in English. The dual language immersion/one-way model serves only students of limited English proficiency and transfers a student to English-only instruction between six and seven years after the student enrolls in school.

**English as a Second Language (ESL):** An intensive program designed to develop proficiency in listening, speaking, reading, and writing in the English language. This category includes the following:

- **ESL Content.** An English program that serves students of limited English proficiency. The English as a second language/content-based model provides a full-time teacher that gives supplementary instruction for all content areas.

- **ESL Pull-Out.** An English program that serves students of limited English proficiency. The English as a second language/pull-out model provides a part-time teacher to give instruction in English language arts only. A student in an ESL Pull-Out program remains in mainstream instructional arrangements for all other content areas.

**Limited English Proficient (LEP):** The count and percentage of students whose primary language is other than English and who are in the process of acquiring English. The terms “English language learner,” “English learner,” and “Limited English Proficient” (LEP) are used interchangeably. This category includes:

- **LEP No Services.** A student identified as limited English proficient who does not receive any bilingual education or English as a second language services.

- **LEP with Services.** A student identified as limited English proficient who receives bilingual education services or English as a second language services.

**School Progress Domain—Academic Growth Score:** Points earned for results that either maintained performance or earned *Expected/Accelerated* on the STAAR progress measure. Only includes assessments eligible for a STAAR progress measure.

**STAAR Progress Measure Percent at Expected or Accelerated Growth:** The percentage of assessments that met or exceeded the STAAR progress measure expectations. See Chapter 3 of the *2019 Accountability Manual* for more information.

**Progress of Prior-Year Non-Proficient Students:** The percentage of students in grades 4–8 who did not reach the satisfactory standard on STAAR (including STAAR Alternate 2) in the prior year but passed the corresponding assessment in the current year. Participation

Please note that due to the cancellation of spring 2020 State of Texas Assessments of Academic Readiness (STAAR) due to the COVID-19 pandemic, the Participation section of this year’s report is not updated.

STAAR Participation

The percentage of students who were administered a STAAR assessment, STAAR Alternate 2, Texas English Language Proficiency Assessment System (TELPAS), and/or TELPAS Alternate. The details on the participation categories are as follows:

Assessment Participant: 1) number of answer documents with a score code of S, 2) number of STAAR Alternate 2 testers with a score code of N, 3) number of substitute assessments, 4) number of A or O reading answer documents with a scored TELPAS or TELPAS Alternate assessment, and 5) number of A or O mathematics answer documents with a scored TELPAS or TELPAS alternate assessment for year 1–5 asylee/refugees and students with interrupted formal education (SIFEs)

- Included in Accountability: scored answer documents used in determining the district or campus accountability rating, including substitute assessments with a score code of O
- Not included in Accountability: answer documents counted as participants but not used in determining the district or campus accountability rating

♦ Mobile: answer documents were excluded because the students enrolled in the district or campus after the fall TSDS PEIMS submission dates (October 26, 2018, or October 27, 2017, for summer 2018 EOCs)

♦ Other Exclusions. The following answer documents were excluded from the rating determination:

- Answer documents for students who were tested only on the TELPAS/TELPAS Alternate or TELPAS/TELPAS Alternate plus STAAR assessments with score codes of A or O.
- Answer documents of students who are either an English learner who has been in school in the U.S. for one year or an unschooled asylee, unschooled refugee, or SIFE student who has been in school in the U.S. for less than six years.
- Answer documents of STAAR Alternate 2 testers with a score code of N.

Not Tested: answer documents with score codes A or O

- Absent: answer documents with score code A
- Other: answer documents with score code O, except for substitute assessments.

The denominator for participation is the sum of these five categories: Included in Accountability, Mobile, Other Exclusions, and Not Tested (Absent and Other). STAAR Participation Rate is rounded to a whole number. For example, 94.49% is rounded to 94%. Small values may show as zero: 0.4% is rounded to 0%, and 0.6% is rounded to 1%. (Data source: STAAR and TELPAS File)
Attendance, Graduation, and Dropout Rates

**Attendance Rate:** The percentage of days that students were present in 2018–19 based on student attendance for the entire school year. Only students in grades 1–12 are included in the calculation. Attendance is calculated as follows:

\[
\frac{\text{total number of days that students in grades 1–12 were present in 2018–19}}{\text{total number of days that students in grades 1–12 were in membership in 2018–19}}
\]

*(Data source: TSDS PEIMS 42400)*

**Annual Dropout Rate:** The percentage of students who drop out of school during a school year. Annual dropout rates are shown for districts and campuses that serve grades 7–8 and/or 9–12. State law prohibits including a student who meets any of the following criteria from campus and district annual dropout rate calculations:

- Is ordered by a court to attend a high school equivalency certificate program but has not earned a high school equivalency certificate
- Was previously reported to the state as a dropout
- Was in attendance but not in membership for purposes of average daily attendance (i.e., students for whom school districts are not receiving state Foundation School Program [FSP] funds)
- Was initially enrolled in a school in the United States in any grade 7 through 12 as an unschooled refugee or asylee as defined by TEC §39.027(a-1)
- Attends a district exclusively as a function of having been detained at a county detention facility and is not otherwise a student of the district in which the facility is located or is being provided services by an open-enrollment charter school exclusively as the result of having been detained at the facility
- Is incarcerated in a state jail or federal penitentiary as an adult or as a person certified to stand trial as an adult
- Is a student in a Texas Juvenile Justice Department facility or residential treatment facility served by a Texas public school district
- Is at least 18 years of age as of September 1 and has satisfied the credit requirements for high school graduation; has not completed his or her individualized education program (IEP); and is enrolled and receiving IEP services

**Annual Dropout Rate (Gr 7–8).** This includes only grades 7 and 8. It is calculated as follows:

\[
\frac{\text{number of dropouts in grades 7 and 8 during the 2018–19 school year}}{\text{number of students in grades 7 and 8 in attendance at any time during the 2018–19 school year}}
\]
Comprehensive Glossary
2019–20 Texas Academic Performance Report

Annual Dropout Rate (Gr 9–12). This includes grades 9 through 12. It is calculated as follows:

\[
\text{Annual Dropout Rate} = \frac{\text{number of dropouts in grades 9–12 during the 2018–19 school year}}{\text{number of students in grades 9–12 in attendance at any time during the 2018–19 school year}}
\]

Both annual dropout rates appear on campus, district, region, and state TAPRs. The state and region annual dropout rates that are reported on district and campus TAPRs, however, are calculated without the exclusions required for campus and district calculations.

Note that with all annual dropout rate calculations, a cumulative count of students is used in the denominator. This method for calculating the dropout rate neutralizes the effect of mobility by including in the denominator every student ever reported in attendance at the district or campus throughout the school year, regardless of length of enrollment. For a more complete description of dropout rates and exclusions, see the Secondary School Completion and Dropouts in Texas Public Schools, 2018–19 reports, available on the TEA website at http://tea.texas.gov/acctres/dropcomp_index.html.

For detailed information on data sources, see Appendix H in the 2019 Accountability Manual (Data source: TSDS PEIMS 40203, 40110, 42400, and 42500)

Longitudinal Rates: The status of a group (cohort) of students after four years in high school (4-Year Longitudinal Rate), after five years in high school (5-Year Extended Longitudinal Rate), or after six years in high school (6-Year Extended Longitudinal Rate).

For the 4-Year Longitudinal Rate, the cohort consists of students who first attended ninth grade in 2015–16. They are followed through their expected graduation with the Class of 2019.

For the 5-Year Extended Longitudinal Rate, the cohort consists of students who first attended ninth grade in 2014–15. They are followed for five years and included if they graduated within a year after their expected graduation with the Class of 2018.

For the 6-Year Extended Longitudinal Rate, the cohort consists of students who first attended ninth grade in 2013–14. They are followed for six years and included if they graduated within two years after their expected graduation with the Class of 2017.

Additional Information on Cohorts:

A student transfers into a campus, district, or state cohort when he or she moves into the cohort from another high school in Texas, from another district in Texas, or from out of state.

A student transfers out of a campus or district cohort when he or she moves to another public high school in Texas or moves to another district in Texas. Note that these students are transferred into the cohort of the high school or district to which they moved. There are also students who move out of state or out of the country and students who transfer to private schools or who are home-schooled. These types of transfer students cannot be tracked and are not included in longitudinal rate calculations.

A student does not change cohorts if he or she repeats or skips a grade. A student who begins with the 2015–16 ninth-grade cohort remains with that cohort. A student who started the ninth grade in 2015–16 but takes 5 years to graduate (i.e., graduates in May 2020) is still part of the 2019 cohort; he or she is not switched to the 2020 cohort. This student would be considered a

The graduation, continuation, TxCHSE recipient, and dropout rates sum to 100% (some totals may not equal exactly 100% due to rounding). Students served through special education who graduate with an individualized education program (IEP) are included as graduates.

Additional Information about Federal Graduation Rates

In addition to the detailed breakdown of the four-, five- and six-year longitudinal rates, the district and campus TAPRs show federal graduation rates for the following:

(1) 4-Year Federal Graduation Rate. Cohort of students who first attended ninth grade in 2015–16. They are followed through their expected graduation with the Class of 2019. It is calculated as follows:

\[
\frac{\text{number of students from the cohort who received a high school diploma by August 31, 2019}}{} = \frac{\text{number of students in the 2019 cohort}^{**}}{\text{number of students in the 2019 cohort}^{**}}
\]

(2) 5-Year Extended Federal Graduation Rate. Cohort of students who first attended ninth grade in 2014–15. They are followed for five years to see if they graduated within a year after their expected graduation with the Class of 2018. It is calculated as follows:

\[
\frac{\text{number of students from the cohort who received a high school diploma by August 31, 2019}}{} = \frac{\text{number of students in the 2018 cohort}^{**}}{\text{number of students in the 2018 cohort}^{**}}
\]
6-Year Extended Federal Graduation Rate. Cohort of students who first attended ninth grade in 2013–14. They are followed for six years to see if they graduated within two years after their expected graduation with the Class of 2017. It is calculated as follows:

\[
\frac{\text{number of students from the cohort who received a high school diploma by August 31, 2019}}{\text{number of students in the 2017 cohort}}
\]

** The cohort in the denominator above includes those students who graduated, continued in school, received a TxCHSE, or dropped out. It does not include data errors or leavers with leaver reason codes 03, 16, 24, 60, 66, 78, 81, 82, 83, 85, 86, 87, or 90. Students with leaver codes 88 and 89 are included in the federal rates.

A student in a Texas Juvenile Justice Department facility or residential treatment facility served by a Texas public school district is excluded from district and campus graduation rates calculated for federal accountability purposes. Students served by special education who graduate with an individualized education program (IEP) are included as graduates.

Other Postsecondary Indicators

Advanced/Dual-Credit Course Completion (Grades 11–12): The percentage of students who completed and received credit for at least one advanced or dual-credit course. Decisions about awarding high school credit for college courses are described in Texas Administrative Code §74.25.

Profile

Student Information

Please note, the Enrollment section of this report is new this year. The definitions below describe the nuances between Membership and Enrollment. If comparing the data shown from this year’s report to previous reports, use the data displayed under Membership.

**Enrollment**: Students reported as enrolled as of the last Friday in October (October 25, 2019).

**Membership**: Membership differs from enrollment, as it does not include those students who are served for less than two hours per day. A student is in membership if he/she is enrolled and is either

- scheduled to attend at least two hours of instruction each school day or
- participating in an alternative attendance accounting program.

For example, the count of *Total Students* excludes students who attend a non-public school but receive some services, such as speech therapy—for less than two hours per day—from their local school district.

**Total Students**: The total number of public school students who were reported at any grade from early childhood education through grade 12. (*Data source: TSDS PEIMS 40110*)

**Students by Grade**: The count of students in each grade divided by the total number of students. (*Data source: TSDS PEIMS 40110*)

**Ethnic Distribution**: The number and percentage of students and staff who are identified as belonging to one of the following groups: African American, Hispanic, white, American Indian, Asian, Pacific Islander, and two or more races. (*Data source: TSDS PEIMS 40100, 30040, 30050, 30090*)

**Male/Female**: The number and percentage of students who are identified as male or female. (*Data source: TSDS PEIMS 40100*)

**Economically Disadvantaged**: The count and percentage of students eligible for free or reduced-price lunch or eligible for other public assistance.

\[
\text{number of students eligible for free or reduced-price lunch or other public assistance} \quad \frac{\text{total number of students}}{}
\]

(*Data source: TSDS PEIMS 40100 and TEA Student Assessment Division*)

**Non-Educationally Disadvantaged**: Those students not eligible to participate in free or reduced-price lunch or to receive any other public assistance. This is the complementary count and percentage to Economically Disadvantaged.

**Section 504 Students**: The count and percentage of students identified as receiving section 504 services.

**English Learners (ELs)**: The count and percentage of students whose primary language is other than English and who are in the process of acquiring English. The terms “English Learner” and “Limited English Proficient” (LEP) are used interchangeably.
The percentage of ELs is calculated by dividing the number of ELs by the total number of students in the district or campus. Not all students identified as ELs receive bilingual or English as a second language instruction. *(Data source: TELPAS file)*

**Students with Disciplinary Placements:** The count and percentage of students placed in alternative education programs under Chapter 37 of the Texas Education Code (Discipline; Law and Order). Districts report the disciplinary actions taken toward students who are removed from the classroom for at least one day. Although students can have multiple removals throughout the year, this measure counts students only once and includes only those whose removal results in a placement in a disciplinary alternative education program or juvenile justice alternative education program. It is calculated as follows:

\[
\frac{\text{number of students with one or more disciplinary placements}}{\text{number of students who were in attendance at any time during the school year}}
\]

For 2019–20, the following 19 disciplinary action codes are included as disciplinary placements: 02, 03, 04, 07, 08, 10, 12, 13, 14, 15, 51, 52, 53, 54, 55, 57, 59, 60, and 61. *(Data source: TSDS PEIMS 44425)*

**Students with Dyslexia:** The count and percentage of students identified with Dyslexia. *(Data source: TSDS PEIMS 40100)*

**Foster Care:** The count and percentage of students identified as in the conservatorship of the Department of Family and Protective Services (DFPS). *(Data source: TSDS PEIMS 40100)*

**Homeless:** The count and percentage of students meeting the criteria defined by 42 U.S.C. Section 11434(a), the term “homeless children and youths” —

(A) individuals who lack a fixed, regular, and adequate nighttime residence [within the meaning of section 11302(a)(1)]; and

(B) includes —

(i) children and youths who are sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason; are living in motels, hotels, trailer parks, or camping grounds due to the lack of alternative adequate accommodations; are living in emergency or transitional shelters;

(ii) children and youths who have a primary nighttime residence that is a public or private place not designed for or ordinarily used as a regular sleeping accommodation for human beings [within the meaning of section 11302(a)(2) (C)];

(iii) children and youths who are living in cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations, or similar settings; and

(iv) migratory children (as such term is defined in section 6399 of title 20) who qualify as homeless for the purposes of this subtitle because the children are living in circumstances described in clauses (i) through (iii).

*(Data source: TSDS PEIMS 40100)*

**Immigrant:** The count and percentage of students identified under the definition found under Title III of the No Child Left Behind Act of 2001 (NCLB), where the term ‘immigrant children and youth’ is defined as, “individuals who are aged 3 through 21; were not born in any state; and have not been

attending one or more schools in any one or more states for more than 3 full academic years. The term ‘State’ means each of the 50 States, the District of Columbia, and the Commonwealth of Puerto Rico. *(Data source: TSDS PEIMS 40100)*

**Migrant**: The count and percentage of students that meet the following criteria: Student is (ages 3-21), or the student's parent, spouse, or guardian is a migratory agricultural worker, including a migratory dairy worker, or a migratory fisher, and who, in the preceding 36 months, in order to obtain, or accompany such parent, spouse, or guardian in order to obtain, temporary or seasonal employment in agricultural or fishing work: 1) has moved from one school district to another; or 2) resides in a school district of more than 15,000 square miles, and migrates a distance of 20 miles or more to a temporary residence to engage in a fishing activity. *(Data source: TSDS PEIMS 40100)*

**Title I**: The count and percentage of students participating in a program authorized under Elementary and Secondary Education Act (ESEA), Title I, Part A of the Improving America's Schools Act. *(Data source: TSDS PEIMS 41461)*

**Military Connected**: The count and percentage of students who are dependents of an active duty or former member of the United States military, the Texas National Guard, or a reserve force of the United States military, or who are dependents of a member of the United States military, the Texas National Guard, or a reserve force of the United States military who was killed in the line of duty. *(Data source: TSDS PEIMS 40100)*

**At-Risk**: The count and percentage of students identified as being at risk of dropping out of school as defined by TEC §29.081(d) and (d-1).

\[
\frac{\text{number of students in the 2019–20 school year considered as at risk}}{\text{total number of students}}
\]

*(Data source: TSDS PEIMS 40110)*

**Students by Instructional Program**: The count and percentage of students served in programs and/or courses for special education, career and technical education, career and technical education (grades 9–12 only), bilingual/ESL education, or gifted and talented education. The percentages do not total to 100 because students may participate in more than one of these programs. *(Data source: TSDS PEIMS 40110, 41163 and 41169)*

**Students with Disabilities by Type of Primary Disability**: The count of students disaggregated by primary disability. The TAPR uses five categories of primary disability: Students with Intellectual Disabilities, Students with Physical Disabilities, Students with Autism, Students with Behavioral Disabilities, and Students with Non-Categorical Early Childhood. **Mobility**: The count and percentage of students who have been in membership for less than 83 percent of the school year (i.e., missed six or more weeks).

\[
\text{number of mobile students in 2018–19} \quad \frac{\text{number of students who were in membership at any time during the 2018–19 school year}}{}
\]

This rate is calculated at the state, region, district, and campus level and is disaggregated by race/ethnicity, economically disadvantaged status, special education status, and English learner status. The mobility rates shown are based on the count of mobile students identified at the campus level. The district mobility rate reflects school-to-school mobility within the same district or from outside the district. The region mobility rate reflects school-to-school mobility within the same region or from outside the region. (Data source: TSDS PEIMS 42400)
**Comprehensive Glossary**

**2019–20 Texas Academic Performance Report**

**Attrition Rates (campus profile only):** The percentage of students enrolled in fall 2018–19 who did not return to the same campus in the fall of 2019–20. This calculation is adjusted to account for the grade levels available to students at each campus as well as additional factors. For instance, students were excluded from the calculation if they were enrolled at the highest grade offered at the campus, were not considered to be in membership for the purposes of calculating average daily attendance for funding purposes or were at a campus in 2018–19 that was no longer active in 2019–20. Students who were retained in grade, including those in grade 12, remained in the calculation. Attrition Rate is calculated as follows:

\[
\text{Attrition Rate} = \frac{\text{number of students enrolled in fall 2018} - \text{number of students who returned in fall 2019}}{\text{number of students enrolled in fall 2018}}
\]

**Retention Rates by Grade:** The percentage of students in Texas public schools who enrolled in fall 2019 in the same grade in which they were reported for the last six-week period of the prior school year (2018–19).

\[
\text{Retention Rate} = \frac{\text{the number of students enrolled in the same grade from one school year to the next}}{\text{the number of students enrolled from one school year who return the next year or who graduate}}
\]

Special education retention rates are calculated and reported separately because local retention practices differ for students served by special education.

The TAPR shows retention rates only for grades K–9. Retention rates for all grades can be found in Grade-Level Retention in Texas Public Schools, 2018–19, available from TEA. *(Data source: TSDS PEIMS 40110)*

**Data Quality (not on campus profile):** The percentage of errors made by the district in the TSDS PEIMS Student Leaver Data.

*Percent of Underreported Students.* Underreported students are 7th–12th graders who were enrolled at any time during the prior year, who are not accounted for through district records or TEA processing in the current year, and for whom the district did not submit a leaver record. A district is required to submit a leaver record for any student served in grades 7–12 the previous year unless the student received a Texas high school equivalency certificate (TxCHSE) certificate by August 31, is a previous Texas public school graduate, moved to and enrolled in another Texas public school district, or returned to the district by the end of the school start window. *(For 2018–19 the end of the school-start window was September 27, 2019.)*

\[
\text{Percent of Underreported Students} = \frac{\text{number of underreported students}}{\text{number of students in grades 7–12 who were served in the district in the 2018–19 school year}}
\]

*(Data source: Texas High School Equivalency Certificate Information File; TSDS PEIMS 40100, 40110, 42400, and 42500)*

**Class Size Averages by Grade and Subject:** The average class size by grade (elementary) or selected subjects (secondary classes).
Comprehensive Glossary

2019–20 Texas Academic Performance Report

For secondary classes, averages are determined by totaling the number of students served (in a subject at the campus) and dividing that sum by the count of classes for that subject.

For elementary classes, how the average is determined depends on the instructional model. If an elementary teacher teaches all subjects to the same group of fourth graders all day, the class size average is simply the number of fourth grade students served by that teacher. If an elementary teacher teaches a single subject to five different sections of fourth graders each day, however, the average is calculated the same way as for secondary subjects. For example, one fourth grade science teacher teaches five science classes each day with 18, 20, 19, 21, and 22 students in each class. The total of 100 students divided by the five classes produces an average class size of 20 students for that teacher.

The following rules apply to the average class sizes:

- Classes identified as serving regular, compensatory/remedial, gifted and talented, career and technical, and honors students are included in the calculation.
- English language arts (ELA), mathematics, science, social studies, languages other than English, computer science, and career and technical education are included in the calculation, as are self-contained classrooms.
- Classes where the number of students served is reported as zero are not included.
- Service codes with the “SR” prefix are not included.
- Teacher roles coded as “teacher” and/or “substitute teacher” are included.
- Only class settings coded as “regular class” are included.
- Missing partial FTE counts are not included.
- Elementary classes in which the number of students exceeds 100 are not included.
- Mixed grade-level class averages are not included.

Staff Information

Total Staff: The total count of staff which includes professional staff (teachers, professional support, administrators), educational aides, and (on the district profile) auxiliary staff. (Data source: TSDS PEIMS 30040, 30050, and 30090)

Professional Staff: The full-time equivalent (FTE) count of teachers, professional support staff, campus administrators, and on the district profile, central office administrators. Staff are grouped according to roles as reported in TSDS PEIMS. Each type of professional staff is shown as a percentage of the total staff FTE. See Appendix A for all TSDS PEIMS Role IDs. (Data source: TSDS PEIMS 30040, 30050, and 30090)

Educational Aides: The count and percentage of paraprofessional staff who are reported with a role of 033 (Educational Aide) or 036 (Certified Interpreter). The FTE counts of educational aides are expressed as a percentage of the total staff FTEs. See Appendix A for all TSDS PEIMS Role IDs. (Data source: TSDS PEIMS 30090)
Comprehensive Glossary

2019–20 Texas Academic Performance Report

Auxiliary Staff (not on campus profile): The count of full-time equivalent (FTE) staff reported in TSDS PEIMS employment and payroll records who are not reported in the TSDS PEIMS 30090 Staff – Responsibilities record. The auxiliary staff (and educational aide who performs routine classroom tasks under the general supervision of a certified teacher or teaching team) are expressed as a percentage of total staff. For auxiliary staff, the FTE is the value of the percentage of day worked. (Data source: TSDS PEIMS 30060 and 30090)

Librarians and Counselors (Headcount): The headcount of librarians and counselors is based on full-time equivalent (FTE) for full-time and part-time headcounts. Librarians and counselors are considered part-time when the FTE count is less than or equal to .85 (For example, FTE count less than or equal to .85, the part-time headcount is equal to 1).

Librarians and counselors are headcounts not sums of FTEs. The district headcount is not a sum of the campus headcount. For example, a counselor spends 50 percent of their time at the elementary (0.50 FTE) and 50 percent of their time at the high school (0.50 FTE). On each of the campus reports, this counselor will be reflected as 1.0 part-time counselor. On the district report the counselor will be reflected as 1.0 full-time counselor since the FTE count is greater than .85 (0.50 FTE plus 0.50 FTE=1.0 FTE). See Appendix A for TSDS PEIMS Role IDs (Professional Support Staff). (Data source: TSDS PEIMS 30040, 30050, and 30090)

Total Minority Staff: The total count of minority staff is the sum of the FTE counts for all non-white staff groups (African American, Hispanic, American Indian, Asian, Pacific Islander, and Two or More Races). The minority staff FTE count is expressed as a percentage of the total staff FTE. (Data source: TSDS PEIMS 30040, 30050, and 30090)

Teachers by Ethnicity and Sex: The counts of teacher FTEs by ethnic group and by sex. Counts are also expressed as a percentage of the total teacher FTEs. (Data source: TSDS PEIMS 30040, 30050, and 30090)

Teachers by Highest Degree Held: The distribution of degrees held by teachers. The FTE counts of teachers with no degree, a bachelor’s degree, a master’s degree, or a doctorate are expressed as a percentage of the total teacher FTEs. (Data source: TSDS PEIMS 30040, 30050, and 30090)

Teachers by Years of Experience: The FTE count of teachers by total years of experience for the individual, not necessarily years of experience in the district or campus. Teacher counts within each range of experience are expressed as a percentage of total teacher FTEs. Teachers are reported with zero years of experience (first year teachers), 1–5 years, 6–10 years, 11–20 years, and over 20 years. (Data source: TSDS PEIMS 30040, 30050, and 30090)

Number of Students per Teacher: The total number of students divided by the total teacher FTE count. (Data source: TSDS PEIMS 30040, 30050, and 30090)

Experience of Campus Leadership: The average years of experience for principals and assistant principals.

Average Years as Principal: The number of completed years of experience as a principal, regardless of district or interruption in service. These amounts are added together and divided by the number of all principals reported for the campus.
Average Years as Principal with District: The number of years a principal is employed in the district regardless of any interruption in service. The amounts are added together and divided by the number of principals reported for the district.

Average Years as Assistant Principal: The number of completed years of experience as assistant principal, regardless of district or interruption of service. The amounts are added together and divided by the number of assistant principals reported for the campus.

Average Years as Assistant Principal with District: The number of years employed as assistant principal in the district regardless of any interruption in service. These amounts are added together and divided by the number of assistant principals reported for the district.

(Data source: TSDS PEIMS 30050)

Average Years Experience of Teachers: The average number of completed years of professional experience, regardless of district. Weighted averages are calculated by multiplying each teacher’s FTE coefficient (1 for a full-time teacher, .75 for a three-quarter-time teacher, and .5 for a half-time teacher, for example) by his or her years of experience. These amounts are added together and divided by the sum of all teachers’ FTE coefficients. (Data source: TSDS PEIMS 30040, 30050, and 30090)

Average Years Experience of Teachers with District: The average number of years employed in the district regardless of any interruption in service. Weighted averages are calculated by multiplying each teacher’s FTE coefficient by his or her years of experience in the district. These amounts are added together and divided by the sum of all teacher’s coefficients. (Data source: TSDS PEIMS 30050)

Average Teacher Salary by Years of Experience (regular duties only): Total pay for all teachers in each category divided by the total teacher FTE count in that category. For the purpose of this calculation, the total actual salary amount is pay for regular duties only and does not include supplemental pay. For teachers who also have non-teaching roles, only the portion of time and pay dedicated to classroom responsibilities is factored into the average teacher salary calculation. Teachers are reported with zero years of experience (first year teacher), 1–5 years, 6–10 years, 11–20 years, and over 20 years. (Data source: TSDS PEIMS 30060)

Average Actual Salaries (regular duties only): For each category, the total salary for that category divided by the total FTE count for that category. Only payment for regular duties is included in the total salary; supplemental payments for extra duties (e.g., coaching, band and orchestra assignments, club sponsorships) are not included. See Appendix A for lists of the TSDS PEIMS role IDs included in each category.

Teachers. Teachers, special duty teachers, and substitute teachers. Substitute teachers are either temporarily hired to replace a teacher or hired permanently on an as-needed basis. The District Teacher Salary Report and Graph also uses this definition in creating counts for various salary ranges.

Professional Support. Therapists, nurses, librarians, counselors, and other campus professional personnel.

Campus Administration (School Leadership). Principals, assistant principals, and other administrators reported with a specific school ID.
Central Administration (not on campus profile). Superintendents, presidents, chief executive officers, chief administrative officers, business managers, athletic directors, and other administrators reported with a central office ID and not a specific school ID.

**Instructional Staff Percent (district profile only):** The percentage of the district’s FTEs whose job function was to provide classroom instruction directly to students during the 2018–19 school year. The instructional staff percent is a district-level measure and is calculated as follows:

\[
\frac{\text{total number of hours for district staff who were reported under expenditure object codes 6112, 6119, and 6129, and function codes 11, 12, 13, and 31}}{\text{total number of hours worked by all district employees}}
\]

Contact the Division of Financial Compliance at (512) 463-9095 for further details about this measure. *(Data source: TSDS PEIMS 30040, 30050, and 30090)*

**Turnover Rate for Teachers (not on campus profile):** The percentage of teachers from the fall of 2018–19 who were not employed in the district in the fall of 2019–20. It is calculated as the total FTE count of teachers from the fall of 2018–19 who were not employed in the district in the fall of 2019–20, divided by the total teacher FTE count for the fall of 2018–19. Staff who remained employed in the district but not as teachers also count toward teacher turnover. *(Data source: TSDS PEIMS 30040 and 30090)*

**Staff Exclusions (not on campus profile):** The counts of individuals who serve public school students but are not included in the FTE totals for any of the other employee statistics. There are two types of these entries: individuals participating in a shared services arrangement and individuals on contract with the district to provide instructional services.

*Shared Services Arrangement (SSA) Staff* are staff who work in schools located in districts other than their employing district or whose assigned organization (in TSDS PEIMS) shows a code of 751, indicating that they are employed by the fiscal agent of an SSA. Only the portion of a person’s total FTE amount associated with the school in another district (or with the 751 organization code) is counted as SSA. SSA staff are grouped into three categories: Professional Staff (which includes teachers, administrators, and professional support); Educational Aides; and Auxiliary Staff. Note that SSA Auxiliary Staff are identified by the type of fund from which they are paid.

*Contracted Instructional Staff (District and Campus Profiles)* refers to counts of instructors for whom the district has entered into a contractual agreement with some outside organization. Through the contract, the outside organization has committed to supplying instructional staff for the district. They are never employees of the reporting school district. *(Data source: TSDS PEIMS 30055 and 30060)*

**Contracted Instructional Staff:** The count of individuals who are not regular classroom teachers who have signed a contract with a district, nor are they shared services arrangement employees. Rather, these are instructors for whom the district has entered into a contractual agreement with an outside organization. Through the contract, the outside organization has committed to supplying instructional staff for the district. Kindergarten Readiness

Kindergarten Readiness

This report includes kindergarten readiness data for students who were enrolled in public kindergarten and were assessed using one of the approved instruments on the Commissioner’s List of Reading Instruments. Data are shown for the district and campus at which the student attended kindergarten.

Readiness is based on the literacy assessment only and does not provide comprehensive information on student readiness across important developmental domains.

Assessed Students in KG: Kindergarten students enrolled in the Texas public school system as of the Fall Snapshot date (the last Friday in October of each year) who were administered, at the beginning of year (BOY) administration, an assessment on the Commissioner’s List of Reading Instruments. Students may take multiple assessments.

Eligible: Kindergarten students who met at least one of the public prekindergarten (PK) eligibility criteria during the kindergarten year—economically disadvantaged, English learner (EL), homeless, is or ever has been in foster care, is the child of an active duty member of the armed forces of the United States, or is the child of a member of the armed forces who was injured or killed while on active duty—not the actual eligibility as of the PK year. PK eligibility is based on a student’s status as of his/her kindergarten year as there are no comprehensive data concerning PK eligibility for children who did not attend public PK.

Eligible Students Who Attended PK: Kindergarten students who were assessed for kindergarten readiness and were eligible to attend public PK and did attend.

Eligible Students Who Did Not Attend PK: Kindergarten students who were assessed for kindergarten readiness and were eligible to attend public PK but did not attend.

Students Who Were Not Eligible for PK: Kindergarten students who were assessed for kindergarten readiness and were not eligible for public PK.

Students Ready for KG: Count of all assessed kindergarten students who met or exceeded the cut-off score for a particular assessment on the Commissioner’s List of Reading Instruments. Kindergarten readiness for each assessment is assessed differently across multiple assessment domains with varying benchmarks/cut-off scores of readiness. For school years 2013–14 through 2019–20, readiness is based on the literacy assessment only and does not provide comprehensive information on student readiness across important developmental domains.

Students Assessed in KG: Count of all kindergarten students who were assessed for kindergarten readiness.

Percent Ready: Percentage of all assessed kindergarten students who were determined to be kindergarten ready based on assessment results.

\text{Percent Ready} = \frac{\text{number of kindergarten ready students}}{\text{all kindergarten students who were assessed for kindergarten readiness}}
